Highlights

Intensive coffee aroma

Water is a crucial ingredient of every espresso - so for optimum taste, it's always best to filter it professionally. That's why all Philips Saeco espresso machines can be optionally fitted with the innovative INTENZA+ water filter, which we co-developed with BRITA, the world's No. 1 in household water filters. Just set it to your location's hardness level, and its sophisticated technology does the rest. The result? Ideal water conditions for espresso with the most intense aroma.

Aroma System

The settings can be adjusted to guarantee optimum aroma enhancement and to suit individual taste.

Efficient brewing process

The water filter ensures a constant brewing temperature and consistent pressure during the brewing process, enhancing your espresso machine's performance.

Reduces lime-scale

The INTENZA+ water filter helps protect your machine against the build-up of limescale from tap water, which affects the taste and aroma of your coffee.

Longer lifetime

The water filter extends the lifespan of your espresso machine, ensuring you can enjoy the best-tasting coffee for longer.

Click & go system

The water filter cartridge easily clicks into the water tank and is ready to use in less than 30 seconds.
